

ROMIC frame sets and bicycles are designed and manufactured under the direct supervision of Ray Gasiorowski, President of **ROMIC CYCLE Co., Inc.** Ray has over 24 years experience in the supervisory capacity of bicycle manufacturing, both in Design and Engineering. Ray was an active International competitor in many road races in the United States, Canada, Mexico and Europe. He was an Olympic Finalist in 1952 and listed among the top ten B.A.R. riders for four years in a row.

With his vast knowledge and years of experience, Ray formed **ROMIC** to offer quality handcrafted machines at reasonable prices to discriminating serious cyclists, be they tourists or racers. Using only the finest materials and close personal attention to all manufacturing details, we feel we are offering the finest hand built frame sets for the money. A new feature this year is our exclusive use of copper plated dropouts on the Model 100 and Model X-100 Frame Sets. Chrome plating is also available on request.

Read what a few satisfied **ROMIC** owners have written us to say:

R.B., Phoenix, Az. . . . "I am extremely well satisfied with the bike. It is a great machine and I will match it with any bike built."

S.S., Middleburg, N.Y. . . . "The bicycle frame is a beauty and I'm very pleased and will heartily recommend my friends turning to you. The workmanship is excellent and I anticipate many miles of pleasure on it. Thank you for sending me such a splendid example of a bike."

H.D., Nacogdoches, Tx. . . . "I am writing to tell you how happy I am with the excellent workmanship that obviously went into the construction of the frame. Alignment, of course, is perfect, and I have nothing but praise for the way the bike handles. I will recommend **ROMIC CYCLES** to my friends."

J.H., Waltham, Ma. . . . "The bikes are beautiful — at the N.Y. Show ours would have been among the nicest there."

We invite you to look over the models and features we offer and hope you too will be a satisfied owner of a **ROMIC** soon.
